Profile

As a dedicated and ambitious computer science student, I am seeking a scholarship opportunity to further enhance my academic and professional pursuits. My goal is to leverage my passion for technology and programming to make meaningful contributions to the field. I am eager to engage in advanced studies, research, and projects that align with my commitment to innovation and excellence in computer science.

Education

12/2021 – 01/2026	Bachelor of science in computer science <i>Bahir Dar University</i>
09/2017 – 07/2021	High school Diploma <i>Chagni High school</i>

Languages

- English
- Amharic

Skills

Proficient in programming languages: Java, Python, C++

Experience with web development technologies: HTML, CSS, JavaScript

Solid problem-solving and critical-thinking abilities

Courses

Data Structures, Algorithms, Database Management, Artificial Intelligence. Objective-Oriented programming, Computer networking

Projects

Library Management Web

- Developed a web-based application using C++ for managing and storing books information electronically according to student's needs. The system helps both students and library manager to keep a constant track of all the books available in the library.
- Showcased strong problem-solving skills and attention to detail.

Cafe Website

- Created a cafe website using HTML, CSS, and JavaScript for cafes to showcase their menu, location, hours of operation, and any special promotions or events.
- Demonstrated a deep understanding of web development technologies.
